ADVERTISE IN YOUR LOCAL PAPER? YES, YOU SHOULD!

THE POWER OF NEWSPAPER ADS IN 2020-21

Given the proliferation of digital platforms, the rise of geo-targeting and the constant stream of online news, you may be wondering if it's worth placing ads in your local paper. In fact, the power of newspapers should not be ignored.

Distributed regularly, community newspapers allow you to connect with your target audience in meaningful ways. In fact, studies show that consumers are more likely to be swayed by ads in local newspapers because they view these publications as credible. Indeed, the reputation and good standing of newspapers has enormous influence.

THE IMPACT OF THE LOCAL NEWSPAPER

Whether published in print or online, local newspapers remain a top source of reliable information for the public, particularly when it comes to issues affecting the community. Without a doubt, local papers are a relevant and in-demand source of news. And, when marketing dollars are spent wisely, they make a real impact.

The takeaway? Make certain to advertise where you're sure to get real results!
